<b>Water tank (approx.)</b>	<b>250 l</b>
<b>Persons (max.)</b>	<b>12</b>
<b>Cabins</b>	<b>2</b>
<b>Berths</b>	<b>4</b>
<b>Height in cabin (approx.)</b>	<b>1.90 m</b>

# HARDTOP

“In due course, BAVARIA has developed a Hardtop version in close cooperation with BMW Group DesignworksUSA. The new SPORT HT 38 features an evolutionary style with a high hull and clean design aspects.

‘The SPORT HT 38 will set new standards with wise room proportions and ergonomic forms’, says Andres Cardenas, CEO BAVARIA. ‘BAVARIA shows once more that we have a unique price-value-ratio.’

The spaciouly arranged cockpit features a large seating area, sun and wellness corners, an integrated wetbar and another sunbathing spot on the foredeck. The new SPORT HT 38 leaves no room for desire whilst driving or laying at anchor.

The new BAVARIA offers apparent improved quality, functionality and comfort underneath deck, thanks to a separate rear cabin with a double bed, great height throughout and an owner’s cabin in the fore ship. A lifestyle ambience, in which you feel at home at once.”

# REVIEWS

**“It’s a sophisticated look, not unlike a German prestige car and, with so much choice in terms of internal finishes, including three different timbers and 16 colour combinations – as well as enclosed hardtop or targa arch – this boat can be customised to reflect your own personality. But perhaps best of all, the boat offers hitherto new riches, more volume and comforts, and bang for your buck. Together, such things put this sports cruiser on the must-see list and help shift that huge first-boat-owner’s market back in gear.”**

**John Zammit, Trade A Boat Magazine**

**“Besides Bavaria’s proven technical know-how, numerous innovations have been incorporated into the Sport 38. Implemented in accordance with premium design standards and great attention to detail, the Sport 38 merges dynamic, powerful proportions with maximum comfort and spacious generosity hardly found on any other motorboat of this size.”**

**Andres Cardenas, CEO Bavaria Yachtbau GmbH**

**“The SPORT 28’s and SPORT 38’s new exterior design is a consistent further development of the existing successful line. The yacht has been completely overhauled while at the same time holding on to the classic design characteristics. We have modernized the overall concept of the boat allowing for a more qualitative look and more sportive features.”**

**Laurenz Schaffer, President BMW Group Designworks USA**
